DOCKET FILE COPY ORIGINAL

Dear Congressman Walsh:

This letter responds to your correspondence on behalf of John C. Kelly regarding charges on his telephone bill and relating to information services provided on 800 numbers. Your letter, as well as the complaint of your constituent, has been referred to the Enforcement Division of the Common Carrier Bureau for review. The Enforcement Division will communicate with your constituent upon completion of its review.

The Telephone Disclosure and Dispute Resolution Act (TDDRA) was enacted by Congress in 1992 and required both the Federal Communications Commission and the Federal Trade Commission (FTC) to adopt rules governing the provision of pay-per-call services. Under the TDDRA, the FCC has jurisdiction over the telecommunications carriers involved in the transmission and billing of the telephone calls, while the Federal Trade Commission has jurisdiction over the information service companies themselves.

The TDDRA generally required pay-per-call services to be provided on 900 telephone numbers and generally prohibited the provision of these services on 800 numbers, except in instances where the caller has entered into a presubscription agreement or comparable arrangement with the information service provider. Pursuant to the Commission's rules, which became effective on September 24, 1993, a presubscription agreement entails a formal contractual understanding whereby the consumer is provided clearly and conspicuously all terms and conditions associated with the use of the service and affirmatively agrees to abide by them.

The Commission has received numerous complaints similar to those described by your constituent. These complaints are processed by the Enforcement Division of the Common Carrier Bureau by serving a copy of the complaint upon the telecommunication carriers involved, who must generally respond in writing within 30 days. Beyond reviewing these

complaints and pursuing appropriate action to resolve them, the Commission has undertaken several efforts. First, Common Carrier Bureau staff has met with the carriers that provide the billing service for calls to 800 numbers as well as interexchange carriers who provide the 800 number transport to emphasize their obligations under the TDDRA and the rules of the Commission. Secondly, because the increase in the number of complaints has been so significant, we have started an investigation of these practices, with special focus on whether any companies have attempted to evade or violate our rules. Additionally, as part of the effort to make clear the carriers' responsibilities under the law, the Common Carrier Bureau has recently issued a ruling holding that the information provider's receipt of the originating telephone number, a practice that was serving as the premise of some charges, does not in itself constitute a presubscription agreement.

Moreover, on August 2, 1994, the Commission instituted a Notice of Proposed Rulemaking seeking to strengthen Commission rules to prevent abusive and unlawful practices under the TDDRA. Specifically, the Commission has sought public comment on a proposal to require that a presubscription agreement be established only with a legally competent individual and executed in writing, and that common carriers obtain evidence of the written agreement before issuing a telephone bill that contains charges for presubscribed information services. Under the proposed rules, these telephone bills could be addressed only to the individual who actually entered into the presubscription arrangement, not to the person or company whose telephone was used to place the call. The Commission has tentatively concluded that this and other proposed changes would significantly assist in eliminating the source of many consumer complaints. Enclosed is a summary of the Commission's action in this regard.

We appreciate receiving your correspondence. Please call upon us if we can provide any additional information.

Sincerely,

Kathleen M.H. Wallman
Chief
Common Carrier Bureau

RE: Convenience Call Charges to Account Number,
(315) 488-9188 987 253

To Whom It May Concern:

Enclosed please find a copy of my telephone bill which lists charges incurred for dialing two "800" numbers. These calls were made by my two teenage sons who, like myself, were under the impression that these were Toll-Free Calls. At the time of these calls, there was no information given stating any charge associated with dialing these numbers. Obviously, this is a SCAM! I was outraged upon receipt of my phone bill. Therefore, I feel that I did not incur any charge and will NOT be paying any amount of money for these calls.

Furthermore, I am also enclosing one of the many recent mailings I have received. I find it very coincidental that I have NEVER RECEIVED any mail of this "caliber" prior to these two calls. I am positive that there is a direct correlation between the calls and this TRASH. I expect these mailings to cease! If these do not, I will take legal action!

Sincerely,

John C. Kelly
